

Career and Technical Student Organizations

**Serving Career and Technical
Education Students in Nebraska**

Learning that works for America

CTE™

High school is an exciting time for young people. They're learning important lessons, making new friends and preparing for a collegiate experience or future employment that will propel them into adulthood. While schoolwork and class can be time consuming, Career Student Organizations can be a valuable part of a student's learning experience. They can help unleash a student's passions in life and foster lifelong skills in leadership, discipline and personal development. These are important skills to learn no matter what future course students may choose.

Growing up, I was an active member of what is now the National FFA Organization, where I learned about public speaking, leadership and other skills while nourishing a lifelong interest in agriculture and rural America. Though I didn't realize it at the time, my participation in FFA would have benefits far beyond my high school years. I've applied the skills I learned through more than 30 years in public service - from county commissioner to the Governor of Nebraska, as Secretary of Agriculture and now as your United States Senator. Many other Career Student Organizations offer similar benefits.

Not only can participation in these organizations help instill important skills, they also provide an opportunity to meet with like-minded students who share their interests. And leaders of these organizations often serve as inspiration and valued mentors, further helping students prepare for the future.

We are incredibly fortunate to live in the greatest country in the world with so many opportunities to enhance our learning experience. I encourage all students to take full advantage of the opportunities presented, particularly when it comes to Career Student Organizations. As our young people transition into adulthood and careers, participation in outside organizations at a young age can help ensure strong, confident leaders for the future.

I hope you take the time to review what these organizations have to offer. Encouragement from parents can be key to students taking that first step to joining an organization.

Mike Johanns
United States Senator

Nebraska Fact Sheet

CTE STATE OVERVIEW

At the secondary level, CTE is delivered through comprehensive high schools.

At the postsecondary level, CTE is delivered through the community college system, which has campuses located throughout the state.

89,843
SECONDARY

52,653
POSTSECONDARY

99.5%
of CTE high school
students graduated.

83%
met performance goals for
technical skills.

90%
of CTE postsecondary
students met performance
goals for technical skills.

68%
remained enrolled or
transferred to another
postsecondary institution.

CAREER STUDENT ORGANIZATIONS IN NEBRASKA

Career Student Organizations extend Career Education in Nebraska through networks of programs, business and community partnerships and leadership experiences at the school, state and national levels. Career Student Organizations provide Nebraska students with opportunities to apply academic, technical and employability knowledge and skills necessary in today's workforce.

CTSOs serve over 20,000 Nebraska students through DECA, FBLA, FCCLA, FEA, FFA, HOSA, and SkillsUSA. For a report of CTSSO participation by each school, please see the section in this document.

Activities the Career Student Organizations work together on include; Legislative Workshop, Commissioner's Recognition Ceremony, State Officer Leadership Training, and a Service Project – FEED NEBRASKA.

PERKINS FUNDING

Nebraska received \$6,816,893 for Fiscal Year 2013, the same as in 2012 and \$700,000 less than in 2010. Of funds allocated to local programs, 55 percent are distributed to secondary recipients and 45 percent to postsecondary recipients.

Learning that works.

Nine organizations. One common mission.

Career and Technical Student Organizations (CTSOs) provide the American education system the tools to educate the student for college and careers in ways that are uniquely American. By integrating into Career and Technical Education programs and courses, CTSOs extend teaching and learning through networks of programs, business and community partnerships and leadership experiences at the school, state and national levels with different opportunities to learn academic, technical and employability skills, which American business and industry say are necessary in today's workforce.

Connecting classrooms to a large network.

Each of the nine CTSOs focus on specific career fields and tailors their programing to the students, teachers and businesses in those fields. With its singular focus on a specific set of career areas (Career Clusters), each CTSO develops partnerships with business and industry, teachers and colleges and at the local, state and national levels that support and enhance student

development in unique ways.

Each organization operates independently with school-based chapters, state-based associations and national offices creating opportunities and experiences that a school or even a state could not achieve on their own.

At the national, state and local levels, CTSOs offer diverse programming that is designed to enhance classroom instruction and four common organizational goals: academic and career achievement, leadership development, professional development; and community service.

At the local level, CTSO chapters operate as in-school, co-curricular programs led by CTE teachers as advisers in middle schools, high schools and postsecondary institutions.

The U.S. Congress has specifically authorized CTSOs in the Perkins Act, and they operate as national not-for-profit organizations divided into state associations and local school chapters. Funds from the Perkins Act can be used to support local CTSOs.

Students are the core of each organization.

Students participating in CTSOs learn

contextualized academic instruction and have the opportunity to work in settings where the career skills learned in the classroom can be utilized. Participation in a local chapter includes activities designed to expand students' leadership abilities, contextualize their academic instruction, encourage them to pursue their education and equip them with job-related skills in their career field of interest. Students are also able to develop leadership, teamwork, creativity and technical skills.

Students participate in local, state, national and international career-based competitions, aligned with state academic standards, designed to measure their academic understanding and skills development.

Scholarships and awards also encourage students to continue their career-path education and assume personal responsibility for their own career readiness.

By providing students with contextualized academic instruction and the opportunity to work in settings where the career skills learned in the classroom can be utilized, CTSOs effectively facilitate the development of students' academic, technical and employability skills.

ACADEMIC AND TECHNICAL SKILLS

CTSOs apply learning through classroom activities and programs, such as competitive events, that provide unique opportunities to motivate students to demonstrate classroom instruction. CTSOs engage businesses in the education process to identify essential career ready skills.

EMPLOYABILITY SKILLS

CTSOs create leaders through the development of 21st Century Skills such as creativity, problem solving, teamwork and goal setting.

STUDENT, COMMUNITY AND BUSINESS ENGAGEMENT

CTSOs enhance student engagement by empowering them in classroom, community and career activities.

EDUCATION ATTAINMENT

According to the National Research Center for Career and Technical Education, participating in leadership and professional development activities in a CTSO raises students' educational aspirations.

Making an Impact

With more than 1.5 million student members combined, CTSOs have a definite impact on students' overall college and career readiness:

Students who participate in CTSOs demonstrate higher levels of academic engagement and motivation, civic engagement, career self-efficacy and employability skills than other students, and the more students participate in CTSO activities, the better the results.

According to the National Research Center for Career and Technical Education, participating in leadership and professional development activities in a CTSO raises students' educational aspirations.

Students who participate in school organizations in 10th grade have higher high school grade point average and are more likely to be enrolled in college at 21 than other students.

Career and Technical Student Organizations

The mission of Business Professionals of America is to contribute to the preparation of a world-class workforce through advancement of leadership, citizenship, academic and technological skills.

ACADEMIC AND TECHNICAL SKILLS

Align with National Curriculum Standards

CTSO programs and activities, such as competitive events, are aligned with National Curriculum Standards in sixteen career clusters recognized by the U.S. Department of Education.

Integrate Into Classroom Instruction

CTSO programs and activities are designed to provide authentic, experiential application of essential skills and knowledge obtained through classroom instruction.

Industry Validated

The sixteen career clusters and their National Curriculum Standards are based on research conducted by and through industries associated with each career cluster.

Assess Classroom Learning

CTSOs use a variety of assessment models that are reflective of industry practices. Each requires the student to apply the knowledge and skills learned in the classroom to industry situations through a variety of assessment techniques such as comprehensive exams, role-plays, presentations, demonstrations and case-studies.

EMPLOYABILITY SKILLS

Support 21st Century Skills

CTSO programs and activities develop 21st Century Skills such as collaboration, communications, critical thinking and creativity.

Preparing Future Leaders

CTSO programs and activities provide students with opportunities to assume leadership roles and encourage them to be active citizens.

Emerging Technology

CTSOs keep students at the forefront of technology by ensuring classrooms are up-to-date with the latest productivity-enhancing tools, equipment and curriculum.

STUDENT, COMMUNITY AND BUSINESS ENGAGEMENT

Creating Small Learning Communities

As an example of a highly-effective small learning community, CTSOs bring together students with similar interests and foster a collaborative environment.

Making A Difference In The Community

CTSOs provide students opportunities to develop and participate in community service projects that help them recognize the power they have to make a difference in their communities.

Mentoring Tomorrow's Workforce

CTSO students learn important skills through business and industry partners who serve as mentors through various CTSO programs and activities.

EDUCATION ATTAINMENT

Reaching Goals

CTSOs are the premier example of maximizing student engagement with academic classroom activities to lead to success in college and careers.

Supporting a Program of Study

Career and Technical Education's success lies in its ability to provide rigorous programs of study, relevant knowledge and the ability to develop meaningful and effective relationships.

Enriching Career Opportunities

CTSO programs and activities provide students a clearer idea about their future career path thus engaging them in relevant coursework and co-curricular activities.

Engaging All Students

Regardless of learning style or scholastic aptitude, CTSOs engage all students in the learning process and give them an experience in school that will create a positive impact in their learning process.

Business Partnerships

Career and Technical Student Organizations (CTSOs) engage businesses and industry at the national, state, and local levels. This involvement shows educators and students alike that business cares about their future and helps ensure that education experiences are aligned to the needs of business. Among the nine CTSOs more than 1,000 businesses are actively involved in a variety of ways. Some of the CTSO's major partners are below.
